Objective

Aiming to obtain a Full Stack Developer role to leverage my comprehensive skills in both front-end and back-end technologies. Proven ability to create reusable components for an enterprise-level web application. Passionate about technology and building scalable web solutions.

Technical Skills

Language : Javascript

Web Development : HTML, CSS, SASS, DOM Manipulation, Async js, APIs, Context API, Node.js, REST APIs, Mongoose, CRUD OPERATION, User Authentication & Authorization, git & version control

WebDev Tools : VSCode, Postman, Chrome DevTools, Github, Netlify, Cloudinary

Frameworks: Bootstrap, Tailwind, React.js, Express.js

Database : MongoDB

Personal Projects

Task Manager : Made this webApp to manage and plan my daily schedule. It is a

Node.js Project. Created Frontend Part using **React.js** and **Tailwind CSS**. Added User Authentication & User Dashboard, Implement functionality of user profile photo using **Multer.js**. Used **Git** and **Github** to maintain the code and previous versions. Hosted it on **AWS Elastic Beanstalk** for faster server response.

E-Commerce Platform : Made it using **React.js** and **Bootstrap** to seamless Experience of user interface. Integrate Products API using **Async / Await** to Fetch the products. Hooks like **useState** and **useEffect** to update state and detect changes in state. Store All data in one file like warehouse using **Context API**. Implement login and signup functionality using **AUTH**. switch to Home, About, Contact and Cart section using **react router**. Implement search functionality for product searching.

Education

Bachelor of Technology in **Computer Science** (MDU, ROHTAK) - 2024

Senior Secondary Schooling (Mother Phoola Sr. Sec School, Jhajjar) - 2020

Secondary Schooling (RSM High School, Jhajjar) - 2018
