EDUCATION

B.Tech in Computer science and Enggineering,
PDM University   2018-2022

High school education Class XII,
Pathania Public School   2016 - 2018

PROJECTS

DevSphere Course marketplace

- Developed a full fledged website from scratch. It is an online learning platform where students can browse, purchase, and access a wide range of courses, while instructors can create, upload, and sell their courses.
- Technologies used were React, React-router, Redux, Express, Cloudinary, Postman, Mongodb, Tailwind, Vercel, Razorpay, Render, Github, Git
- Implemented features like login, signup, authentication, authorization, session management, cart, state management, payment gateway implementation etc (Try it here)

Personal Portfolio

- A personal portfolio designed to effectively showcase my skills, projects, and professional experience. The portfolio serves as a digital resume and a platform to demonstrate my work in web development. It features an engaging layout that highlights my proficiency in modern technologies, project case studies, and a brief introduction about myself.

- Technologies used were React, React-router, Postman, Tailwind, Vercel, Github, Git, Google Sheets Script (Try it here)

ADDITIONAL

- **Additional Details:-** Ability to write clean, maintainable and well documented code. Good communication and collaboration skills, Strong problem solving skills and attention to detail.

- **Certification and Training:-** Mern Full stack, Java full stack training at Tech Mahindra
